

Triad Accessories

-

[Track System](#)

Pre Fabricated 5' Track Sections are ideal for long runs, material handling and reducing operator error. By using the Track, the operator does not have to worry about steering the Triad, just position the material with magnets provided for the proper overlap and let the Triad weld down the Track, a great labor saver. Track System can be portable or stationary.

5' Track System w/Connector #33-500

5' Track for 6" Machine #33-600

5' (1.5m) Section Includes: 20 gauge galvanized steel section, track connector, hardware and magnets. The Track System can be permanently mounted or left portable for space savings.

[Thermal Bonding Tape](#)

Our exclusive Thermal Bonding Tape insures quality welds for a waterproof seal, flatter seams for retractable systems, no needle holes, and seam strength stronger than the material in the pull tension directions. We also now offer the Uniseam FR Tape for seaming fire resistant, acrylic fabrics. This tape is unique in that it is specially formulated to insure a strong bond with fire resistant acrylics.

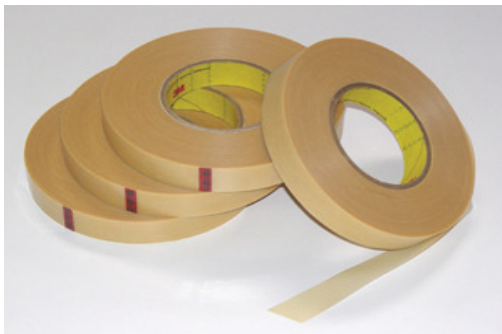

34-200: Uniseam FR Thermal Bonding Tape, 7/8" wide, White, 100 yard rolls, (per roll)

34-250: Uniseam FR Thermal Bonding Tape, 7/8" wide, Black, 100 yard rolls, (per roll)

34-300: Uniseam FR Thermal Bonding Tape, 7/16" wide, White, 100 yard rolls, (per roll)

34-350: Uniseam FR Thermal Bonding Tape, 7/16" wide, Black, 100 yard rolls, (per roll)

34-000: 3M™ Stitchless Awning Bonding Film: 7/8" wide, Translucent/Tan, 100 yard rolls, (per roll) Testing has shown approved strength results on the new Firesist™ product from Sunbrella®.
