23" XL Package Options

Fun Quilter on the Nolting commercial steel frame. We deliver the machine and table to your home and provide setup, testing and training. Along with this you get a free bobbin winder, extra bobbins, oil, patterns and training.

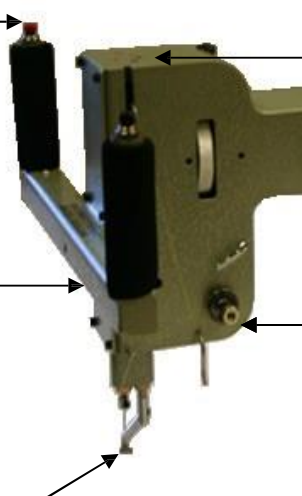

Fun Quilter

The Fun Quilter Head Assembly is identical to the ones we put in our Commercial and Pro Series. No Corners are cut!

Single stitch red button saves your fingertips from having to use the roller wheel when moving the needle one stitch at a time.

9" florescent light for a perfectly lit work area. Switch out and insert a black light when needed.

Our famous hopping foot assembly is just right for rulers and guides.

Only 4 drops of oil every 8 hours of continuous use. No oil wells or complex places to get to.

Obvious thread path and tension device help you achieve your desired stitch quality.
